

## Northamptonshire Healthcare Foundation Trust Equality Delivery System 2 (EDS2) Summary Evidence Document 2017

Northamptonshire Healthcare NHS Foundation Trust provides mental health and community services to people living in the county of Northamptonshire. We also provide health services to prisons outside of the County. Our services are located in hospitals and in the community and we work closely with local councils, NHS organisations and the community and voluntary sector. Our community services provide a wide range of treatment and care for the whole community, helping to keep people out of hospital and ensuring that they receive the highest quality care. The Trust implements Integrated Care Pathways as the operational model for delivering services, therefore evidence is provided in terms of the following pathways:

- Children and adolescent mental health services
- Mental Health and
- Adult health

This report describes an overview of our approach to implement the Equality Delivery System (EDS2) and the Trust's performance against the all goals of the EDS2. We will look to continue to gather equality evidence that demonstrates compliance with the Public Sector Equality Duty (PSED) of the Equality Act (2010) across all our services and pathways. Further work is to be undertaken with internal and external stakeholders to establish the final grading of our performance. Below is the criteria used to assess our current performance under the EDS2 based on evidence received.

EDS 2 Goals	EDS Rating (RAG)	
Better Health outcomes for all	<b>Excellent (Purple)</b>	If our evidence shows we are of meeting all 9 protected groups
Improved patient outcomes and experience	<b>Achieving (Green):</b>	If our evidence shows evidence of meeting 6 – 8 protected groups
Empowered engaged	<b>Developing (Amber):</b>	If our evidence shows evidence of meeting 3 – 5 protected groups
Inclusive Leadership at all levels	<b>Undeveloped (Red)</b>	If our evidence shows evidence of meeting 0 – 2 protected groups
