

How do I access full text journals online?

1. Go to the NICE Evidence Search website: www.evidence.nhs.uk and follow the link to “Journals and Databases” at the top right of the page.

2. Click on “A-Z list of nationally available journals”.

3. It is important to login using your NHS OpenAthens username and password to ensure you see locally purchased resources as well as the national ones.

If you do not have an Athens password, click on **Register for OpenAthens** and follow the on screen instructions

Click on **Login to OpenAthens or OpenAthens** and enter your NHS OpenAthens Username and Password.

4. Once you have logged in, enter the journal title or a keyword into the search box and click on **Search**. You can choose to search by exact title, by the start of the title or by all words in the title. The latter is the best option if you are uncertain of the exact title you are looking for and want to browse a list of journals on a particular subject. Alternatively you can click on a letter to browse an alphabetical list of journals or select ISSN if you have this information.

The screenshot shows the NICE Journals A-Z Search page. At the top, it says "NICE Journals A-Z Search" and "Journals and Databases". Below this, it states "Provided in partnership by HEE and NICE". There is a search box with a "Search" button. Callouts indicate: "Type your keyword(s) in this box" pointing to the search input field, and "Click on Search" pointing to the search button. Below the search box, there are radio buttons for search criteria: "Exact title", "Start of title", "All words in title" (which is selected), and "ISSN". Below these are two rows of letters: "A B C D E F G H I J K L M N O P Q R S T U V W X Y Z" and "0 1 2 3 4 5 6 7 8 9". A callout points to these letters: "Alternatively, click on a letter to browse an alphabetical list of available journal titles".

5. Your list of results shows you the journals you can access in full text, where they are available and what years are available:

The screenshot shows search results for "Advances in Anesthesia". At the top, it says "Total records matched: 34" and "1" in a box. The first result is "Advances in Anesthesia" with ISSN: 0737-6146. It is available from Elsevier in ClinicalKey, with fulltext starting from 01/2007. A callout points to this information: "Details of years and volumes held are displayed here". The second result is "Anaesthesia" with ISSN: 0003-2409. It is available from Wiley - Blackwell Publishing in Wiley Online Library Free Content - NHS, with fulltext starting from 01/1997 and ending 1 year ago (starts volume 52 issue 1). It is also available from Wiley - Blackwell Publishing in Wiley Online Library Medicine and Nursing Collection 2018 - NHS, with fulltext starting from 01/1953. Notes indicate that if not automatically granted access, users should click on "Login" then "Institutional login" then select "OpenAthens Federation" then "NHS England". A callout points to these notes: "Extra access/log in notes are shown". The third result is "Anaesthesia, Critical Care and Pain Medicine" with ISSN: 0310-057X. It is available from Elsevier Masson in ClinicalKey, with fulltext starting from 02/2015. A callout points to the "ClinicalKey" link: "Click on the link to access the full text online (opens in a new window/tab in your browser)". The fourth result is "Anaesthesia and Intensive Care" with ISSN: 0310-057X. A callout points to the "Local Print Collection" link: "Details of print holdings and where they are held are also displayed. Click on the library name for contact details and opening hours".

6. When you have clicked on a link to the full text, depending on the supplier/publisher you may be taken to another login screen. If so, click on **'Sign in via OpenAthens'** or similar wording:

You will find that different journals have different login screens, depending on which publisher or provider is hosting the title. Some titles have login notes in case you do not automatically see the full text:

Schizophrenia Bulletin ISSN: 0586-7614

Available from Oxford University Press (OUP) in [Oxford Journals](#)
 Fulltext starts 01/1969

Notes:

- o If you are not automatically granted access to the full text click on "Sign in" at the top of the screen then "Sign in via your institution" and select "NHS England" from the list.

7. Some links take you to a provider's journal page. To find the article you want, first click on the year it was published then click on the issue it was published in:

The journal information may look different depending on the publisher or company who hosts the journal, but you should almost always find an archive of journal issues to browse. Here are two more examples:

Click on the year then the issue you want to view

8. You will now see a list of the contents of the issue you selected. Scroll down the page to find the article you want.

Click on the **PDF Full Text /Full text PDF** (exact wording may differ) or the red PDF icon to view the article in full.

The screenshot shows the ClinicalKey website interface. At the top, there is a search bar and navigation tabs for 'Books', 'Journals', 'Drug Monographs', 'Guidelines', 'Patient Education', 'Clinical Overviews/First Consult', and 'Multimedia'. The main content area displays the journal 'Anaesthesia Critical Care & Pain Medicine', Volume 37, Issue 3, published in 2018-6-1. Below the journal information, there is a search bar for the issue and a list of articles. A red arrow points to the article titled 'How can we best organise communication with patients' families?' with a red PDF icon next to it.

The screenshot shows the ProQuest website interface. It displays a 'Browse Issue' page for 'Annals of Cardiac Anaesthesia; Mumbai; Apr/Jun 2018; Vol. 21 (2)'. The page shows 28 items available. A list of articles is displayed, including 'Absent right superior vena cava and persistent left superior vena cava with aortic stenosis'. A callout box with a black border and white background points to the 'Full text - PDF (950 KB)' link for this article, with the text 'Click here to view article' inside the box.

9. The full text of the article may open in a new window or download to the bottom of your screen depending on your browser settings. It is possible to save or print a copy of the article by clicking on the icons on screen/PDF viewer. You can Exit or Log-out once you have finished.

The screenshot shows a Windows taskbar with several open applications. A callout box with a black border and white background points to the taskbar icon for 'ContentServer (38).pdf', with the text 'Click here to view the full text' inside the box. The taskbar also shows other applications like 'Advances i...', 'SirsiDynix ...', and 'Journals A-...'. The system tray on the right shows the time as 09:27 on 24/07/2018.

10. If you want to search again; go back to the NICE journals A-Z search page (check the tabs in your browser window it should still be open) and **use the search box at the top of the page as before.**

NOTE: there are a few journals which do not allow access with an NHS OpenAthens password and for these a separate username and password has been set up. You will find instructions of how to login on the Journals A-Z Search page:

Journal of the American Podiatric Medical Association (Formerly : Journal of the American Podiatry Association) ISSN: 8750-7315

Available from American Podiatric Medical Association in [American Podiatric Medical Association](#)

Fulltext starts 01/1996

Notes:
