

QUESTIONS YOU CAN ASK... KEEP EVERYONE SAFE

How do our systems, processes and practices keep people safe and safeguarded from abuse?

How are our risks to people assessed, and their safety monitored and managed so they are supported to stay safe?

Do you have all the information you need to deliver safe care and treatment to people?

How are our services ensuring proper and safe use of medicines where they are responsible?

What is our track record on safety?

Are lessons learned and improvements made when things go wrong?
